Selectors

Josh Lancaster and Ben Pearce have offered their services as Selectors – Josh will judge the paintings and Ben the sculptures.

Below is a short bio of each of them for your information:

Ben is a New Zealand based sculptor who works with wood, stone, metal and found objects.

He completed a Bachelor of Fine Arts in 2003, majoring in sculpture at Whanganui Quay School of Fine Arts and has exhibited regularly in New Zealand and Australia since.

Josh graduated with first-class honours from Massey University School of Design in 2000. In 2005 he was named NZ Young Creative of the Year and represented NZ at the Cannes Young Lions before a highly-awarded advertising career working particularly on some of NZ's favourite and most iconic brands.

His landscapes often capture the geography of the heart - the places we call 'ours' and that define who we are and where we are from. Depictions of the scenes we know and love, connecting us all through a shared memory of place.

In Conclusion

Remember, the Art Exhibition is a wonderful opportunity for artists in the Hawkes Bay region to showcase and sell their works. The Exhibition certainly does profile the great talent that we have within our region and it is great to see the number of people who do attend the exhibition over the 2 week period who come to view and purchase.

Committee is looking forward to hosting another successful exhibition and we hope you enjoy bringing your works to this special event.

Don't forget to register now !
